Work Experience

Full Stack Developer (Intern)

Feb 2025 – Present

Cognizant

- Successfully completed training in **Java Full Stack Development**, mastering **HTML, CSS, JavaScript, Spring Boot, jQuery, Git, and Java** to build scalable web applications.
- Engineered an **Insurance Management System** leveraging **Bootstrap, Thymeleaf, and Java** to automate insurance workflows, significantly enhancing operational efficiency.
- Spearheaded the development of the **Claim Module**, overseeing **claim validation, processing, and SQL database integration** for seamless data handling.
- Collaborated with a **cross-functional team of 4+ developers** in an **Agile environment**, ensuring end-to-end integration between frontend interfaces and backend systems.
- Earned **positive feedback** from internal technical reviews for maintaining **clean architecture**, writing **modular code**, and adhering to best practices in software development.

Projects

Real Estate App — [Live Site](#) | [GitHub](#)

Feb 2024 – Mar 2024

Technologies: React, Node.js, Express, MongoDB, Tailwind CSS, JWT, Socket.io, Google Maps API

- Developed a full-stack real estate platform featuring **JWT-secured authentication**, **Google Maps API** integration, and real-time chat with **Socket.io**.
- Optimized frontend with **lazy loading** for faster page rendering, achieving a **25% improvement** in load times.
- Built and integrated **10+ REST APIs** to support robust CRUD operations across listings and users.

Collaborative Code Editor — [Live Site](#) | [GitHub](#)

May 2024 – Jun 2024

Technologies: React, MERN Stack (MongoDB, Express, React, Node.js), Socket.io, WebSocket

- Built a real-time collaborative coding platform, enabling multi-user code editing with **WebSocket** integration.
- Architected **modular React components** for better reusability, reducing code redundancy by **30%**.
- Worked in a team of 3, applying **Agile workflows** to deliver core features under tight deadlines.

Muscle Map — [Live Site](#) | [GitHub](#)

Aug 2024 – Sep 2024

Technologies: React, Tailwind CSS, JavaScript, Modular CSS

- Designed a personalized fitness planning app, enabling users to generate **custom workout routines**.
- Achieved **mobile-first optimization**, increasing mobile engagement by **40%**.
- Integrated **dynamic form generation** and customizable workout templates for enhanced user personalization.

Education

Savitribai Phule Pune University, BE - Computer Engineering

Dec 2021 – Jun 2025

- GPA: 8.9/10

Certifications & Achievements

- **Beginning C++ Programming** - [Certificate \(PDF\)](#) Dec 2022
- **Node.js, Express, MongoDB Bootcamp** - [Certificate \(PDF\)](#) Jan 2024
- Solved **500+ DSA problems** on platforms including **LeetCode** and **Codeforces**.
- Organized **5+ technical events** as **Managing Director** of **Google Developer Student Club (GDSC)** to promote student engagement in development and coding.
